EDUCATION:

University of Nevada- Las Vegas, Las Vegas, NV
Bachelor of Science: Computer Science

Graduation Date: May 2025
Cumulative GPA: 3.945 (Magna Cum Laude)

WORK EXPERIENCE

Software Engineer Coordinator, Pushabl

Jul 2025-Nov 2025

- Developed and maintained features for a mobile application using **React Native**, collaborating in a **team of 4** to deliver new functionality on schedule.
- Collaborated on **frontend and backend development** using **PHP, HTML, CSS, and JavaScript**, enhancing web and mobile application functionality and responsiveness.
- Integrated **RESTful APIs** to connect mobile and web applications with backend services.
- Utilized **MySQL** database schemas and queries wherever needed within the mobile and web applications, ensuring efficient data storage and retrieval for application features.

Teaching Assistant, University of Nevada- Las Vegas

Jan-May 2023

- Tutored a class of 42 students for Intro to Systems Programming, using **x86_64 and mips**
- Held in-person and virtual office hours to answer questions and teach concepts about the class
- Students that frequented these office hours tended to see an increase in their overall grade in the class

Member, Science National Honor Society

Jan-Mar 2020

- Tutored Algebra and Calculus to high school students at Palo Verde High School
- Volunteer work with other members to help the school and other public events

PROJECTS

UNLV Reserved Parking, Senior Design Project

Jan - May 2025

- Worked in a **team of 9** to build a **mobile application** that allows the user to see a real-time map of parking spots in a parking garage as well as allow the user to make reservations for parking spots
- Primarily developed app frontend and database, which uses **React Native and Firebase**
- Helped with connecting the machine learning backend (**Python w/ OpenCV**) of the camera to the app

F1Tenth Autonomous Vehicle Program

Aug-Dec 2024

- Used **C++, Docker, and Python** to program an autonomous vehicle using ROS systems.
- The autonomous vehicle is currently capable of following walls, navigating around obstacles, and engaging Automatic Emergency Braking when needed.

TECHNICAL SKILLS:

Languages: Proficient: C++ (7 yrs), Python (3 yrs), Java (3 yrs), JavaScript (2yrs), HTML (2yrs), CSS (2yrs)

Familiar: R, MySQL, React Native, C#

Operating Systems: Linux, Windows

Tools: Visual Studio, IntelliJ, GitHub, Docker, Godot, Unity

RELEVANT COURSEWORK:

Data Structures (CS302): Observation of different sorting and searching models (such as stacks, queues, and hashmaps) as well as their trade-offs and asymptotic complexity.

Introduction to Machine Learning (CS422): Covers various machine learning algorithms for regression, classification, clustering, and ensemble learning.

AWARDS & HONORS

Dean's List, University of Nevada- Las Vegas

Aug 2021-May 2025

- Recognized all 8 semesters for academic excellence
